

Lobbysign Slim 22

Standing Displays

standing out

LobbysignSlim 22

The LobbysignSlim 22 is at the forefront of digital signage, combining visual high technology, contemporary elegance and portability. Its design, impact and ease of use are the essential qualities that make the LobbysignSlim 22 an invaluable tool for businesses and organisations to communicate and inform.

Screen Impact

The LobbysignSlim 22 gives unique impact to all kinds of information and images displayed. The "Portrait" format of the screen inside the housing, by its nature, draws peoples' attention and makes reading and viewing images appealing.

Bespoke and dynamic sequences of pages appear with text either on coloured backgrounds or blended with any choice of images. Whether it be notices, messages, announcements or events, the LobbysignSlim 22 is hard to ignore.

Leaflet Rack

An integral rack makes dispensing handouts, flyers, brochures or pamphlets very simple. People are drawn to the screen, and take a hard copy of important information or promotional material.

Unique Appearance

The LobbysignSlim 22 sleek and professional design gives the best first impression in both contemporary and traditional locations. The powder painted neutral surround provides a clean background to give maximum effect to the illuminated screen.

LobbysignSlim 22 with Plug & Play Media Player or PC

The LobbysignSlim 22 media player enables pre-prepared images, text and videos to be displayed, simply by inserting a memory stick in the lockable panel at the back of the display.

The alternative is an inbuilt PC and our own software, which has specially developed to enable users to enter and modify messages simply and easily.

Technology and Service

The LobbysignSlim 22 requires no regular maintenance and is highly durable and reliable thanks to the use of top grade components. Technological piece of mind is ensured by Brackenbury's professional back-up team, with its quick response, expertise and unrivalled after-sales service.

LobbysignSlim 22 Specifications
